

## THE UNIVERSITY OF HONG KONG

**Mapping of Programme Learning Outcomes and Course Learning Outcomes to University Educational Aims – Taught Postgraduate Programmes**

Department of Family Medicine and Primary Care, School of Clinical Medicine, Li Ka Shing Faculty of Medicine

Programme title: Master of Community Health Care (MCHC)

Applicable student cohort(s): 2026 – 2027 and thereafter

The purpose of mapping is to illustrate the coherence of the programme in achieving the University Educational Aims (UEAs). The mapping should be an evaluative and reflective process, and the Faculty must ensure that the programme as a whole offers students sufficient opportunities to develop the attributes articulated in each of the UEAs and the corresponding Institutional Learning Outcomes. *Please put a tick (✓) in the boxes under the UEA columns below to indicate the alignment, as applicable.*

Programme Learning Outcomes (PLOs)	<b>Alignment with University Educational Aims (UEAs)*</b>  Benchmarked against the highest international standards, the taught postgraduate programmes at HKU are designed to enable students to develop capabilities in:					
	<b>UEA1</b> Critical intellectual enquiry and acquiring up-to-date knowledge and research skills in a discipline/ profession	<b>UEA2</b> Application of knowledge and research skills to practice or theoretical exploration, demonstrating originality and creativity	<b>UEA3</b> Tackling novel situations and ill-defined problems	<b>UEA4</b> Collaboration and communication of disciplinary knowledge to specialists and the general public	<b>UEA5</b> Awareness of and adherence to personal and professional ethics	<b>UEA6</b> Enhancement of leadership and advocacy skills in a profession <i>(for professional programmes only)</i>
PLO1: Analyze the health care system and fundamental principles of community health care, and evaluate the opportunities and challenges that the health care system encounters.	x		x			
PLO2: Develop patient centered management plans for common		x		x		

conditions within a community health care setting.						
PLO3: Explore the roles of various health care professionals in disease prevention and the management of common conditions in community health care			X	X		X
PLO4: Create health promotion programs within communities that include preventive interventions		X				X
PLO5: Assess ethical challenges and legal factors pertinent to community health care operations					X	
PLO6: Develop research methodologies in community health care settings	X				X	
PLO 7: Demonstrate the skills needed to educate patients for person-centered care and health professionals for continuous professional development				X		X

\*The Institutional Learning Outcomes for each UEA can be found at [tl.hku.hk/tl/](http://tl.hku.hk/tl/).
